RANCH STYLE COMMUNITY

Introduction to the Developer

Genica Group of Companies is a residential development firm with 23 years dedicated to building fine homes and communities.

Beginning in the early 1990's, the partners initially focused on individual single family homes, custom homes, and low density multi-family homes. Eventually Genica Group was formed and began to develop planned communities, enabling the partners to plan, develop and build communities designed with the homeowner in mind from start to finish.

Kejo Homes has provided construction management services to Genica Group for previous developments, with a particular focus on ranch style homes in leasehold communities.

Many homeowners have placed their confidence in Genica Group as their housing needs have changed. Every client's needs are unique and changing, and we enjoy providing the flexibility and organization required to meet those needs to make the process a thoroughly satisfying experience for our clients.

We look forward to welcoming you to the Sienna Ridge gated lifestyle community!
